

Hamna Javed

Software Engineer / React Native Developer

+923366061195

hamnajaved351@gmail.com

SUMMARY:

React Native Developer with 2+ years of experience building cross-platform mobile applications using React Native, TypeScript, Redux, and REST APIs. Experienced in developing production-ready apps with authentication, real-time chat, payment integration, and third-party API integration. Familiar with Java and Spring Boot fundamentals with growing backend development exposure.

PROFESSIONAL SKILLS:

Frontend: React, Angular, TypeScript, JavaScript.

Mobile: React Native.

Backend (Exposure): Spring Boot.

State Management: Redux, Redux Toolkit, Context API.

APIs & Tools: REST APIs, JSON, Postman.

Authentication: Firebase Auth, Google Auth, Apple Auth..

Testing: Jest, React Testing Library.

Version Control: Git, GitHub, GitLab.

AI Productivity Tools: Experience using AI-assisted development tools (e.g., code generation, debugging assistance, documentation support) to improve development speed and code quality.

WORK EXPERIENCE:

Software Engineer

Khired Network

Nov 2023 – Present

- Contributed to Micro Frontend architecture by developing independently deployable modules for scalable applications.
- Collaborated across teams to integrate Micro Frontends with shared state and seamless user experience transitions.
- Developed cross-platform mobile applications using React Native.
- Integrated third-party libraries and APIs to enhance application functionality and performance.
- Optimized performance of existing React Native applications.
- Leveraged AI-assisted development tools to accelerate feature delivery, improve debugging efficiency, and enhance overall code quality.

PROJECTS:

SimpleRishta - Matrimony Application

- Developed and implemented secure Google Authentication with user verification for seamless and safe login/signup flows.
- Integrated multiple APIs for dynamic content, family profile management, image uploads, and real-time notifications.
- Engineered Face Verification and multi-layer identity verification systems to strengthen platform trust and fraud prevention.
- Designed and built a scalable real-time chat system with advanced user interaction features.
- Integrated secure payment gateways including Google Pay and Apple Pay with transaction validation..
- Owned full feature lifecycle — from UI/UX design to backend integration, testing, and production release.

Smart Workforce

- Developed a workforce management application to streamline employee attendance, scheduling, and HR operations through a centralized dashboard.
- Integrated cloud-based services and REST APIs to enable real-time workforce monitoring and seamless data synchronization.
- Built responsive and scalable mobile features using React Native, ensuring smooth performance across platforms.

EDUCATION:

BS Mathematics

Government College Women University, Sialkot

FSc Pre-Engineering

Government College Women University, Sialkot
